

## Summer JAM Success Story

### Isabella Lee

Even though Isabella “Bella”, a first-year Summer Jam participant, has only been working at Whole Foods Co-Op for about three weeks, she says that the worksite “has become her happy place, and that work is something she looks forward to each day.”

Bella has several duties at the Co-Op, including stocking shelves, “fronting” (making the store front look clean and presentable), sanitizing the store, and helping with curbside pickup and shopping. When asked if there were any aspects of the job she didn’t prefer or necessarily enjoy, she said that there were none! She enjoys all of her duties. She truly loves her placement at Whole Foods and you can hear her excitement and passion about the job in her voice.

Bella hopes to take advantage of future employment opportunities at the Co-Op following her completion in the Summer Jam Program.
