

## Summer JAM Success Story

### **Mashaël Khuda Karam**

Mashaël Khuda Karam is a newly graduated high school student with some serious ambitions and big goals! This is Mashaël's second summer in the JAM Program (last year Mashaël worked at the Charter School of Excellence). This year, she is working at PRI Communities as an Administrative Support Clerk. In this position Mashaël assists PRI administrative managers in their daily operations: answering the phone, making copies, filing, helping with schedules, etc.

Mashaël says, "I really like this job, because I am able to demonstrate my organizational skills and my attention to detail while working. It's a new experience that I am learning from every day!"

Mashaël will be attending Gannon University this fall as a Radiologic Science major! She has been working with her Summer Jam Peer Counselor on resume and cover letter materials so that she can apply for part-time positions on campus while she continues her studies.
