To whom it may concern,

Since my release October 2018, the GECAC Reentry Program has helped reestablish a foundation as well as structure within my life. The GECAC Reentry Program has helped me acquire several ID documents that allowed me to seek various job opportunities and also helped with transportation.

This program also has weekly peer meetings that are not just informative but also motivational and inspirational that provides me with a mental stimulant to become a productive member within my community. With the help of the Reentry Program I have acquired not one, but two jobs, established financial security, housing, and mapped out a payment method to have my student loan removed from default in which will now make me eligible to receive financial aid to pursue secondary education.

The help of this program has made me become a better individual and a better father. My case managers, Mrs. Jackson and Ms. Byes, have provided me with so many resources I would never had knowledge of without this program.

I can honestly say this program has been a true blessing and now I feel like success and prosperity is no longer a dream, but a reality.
